

User Manual - EduTrack

1. Introduction

EduTrack is a comprehensive, bilingual school management platform with a special focus on OHADA accounting and pedagogical management.

2. Director Portal (Global Management)

The director oversees the entire school. From their dashboard, they access global statistics. They can configure classes, manage teaching staff, enroll students, and supervise all operations.

3. Master/Censeur Portal (Discipline & Library)

The master's role is to maintain discipline and manage educational materials.

- Discipline: Daily tracking of absences, tardiness, and justifications. Entry of disciplinary sanctions (Warnings, Reprimands, etc.).
- Library: Management of the school book catalog, tracking student borrowing, and handling returns.

4. Teacher Portal (Pedagogy)

Teachers have a simplified space for their daily tasks:

- Roll Call: Fast interface to mark students absent directly from a smartphone or computer.
- Grading: Entering grades for assessments, with draft saving before final validation.
- Timetable: Viewing their weekly schedule.

5. Bursar Portal & OHADA Accounting

The bursar is responsible for finances, including tuition fees, payroll, and strict accounting.

5.1. OHADA Chart of Accounts

The application integrates the OHADA chart of accounts. The bursar can initialize this default plan, add or modify accounts (Balance sheet accounts, management accounts, treasury accounts).

5.2. Journal Entries

All manual accounting operations are done in the journal. The system blocks any validation if the entry is not balanced (Total Debit = Total Credit).

5.3. Automatic Entries

To save time, the payment of a tuition installment by a student automatically generates an

accounting entry in the journal (e.g., Debit Cash, Credit Tuition Fees).

5.4. Trial Balance & General Ledger

The system automatically generates the Trial Balance and General Ledger for each fiscal year. These documents can be exported as PDFs for checks or audits.

6. Parent Portal (Tracking)

Parents have a personal portal to track their children: access to report cards, timetables, absence history, and tuition payment status.
